

Secondary Programs

Title: Federal Perkins Applications

School districts are required to submit Local Annual Applications each year to apply for funding under the Carl D. Perkins Vocational and Applied Technology Education Act Amendments of 1998 (Perkins III). The Local Annual Application and the estimated Secondary Federal Formula Distribution are mailed to school districts in late April of each year.

Title I funds reserved for secondary programs are distributed based on criteria established under Section 131 of Perkins III. Districts must qualify for a minimum of \$15,000 or join a consortium in order to be eligible to receive Perkins funds.

Once the Local Annual Applications are received by the Division, the preliminary review process is completed within thirty working days. If deficiencies are noted during the review process the district is notified in writing. A funding authorization letter is sent to the school district when the applications are approved.
